EDUCATION

Duke University, Mechanical Engineering & Materials Science | Physics, *Class of 2029*
Colégio Bandeirantes, High School, *Class of 2024*

GPA: 3.85

GPA: 9.6/10 (Top 2%)

Test Scores:

SAT - 1520 (800 Math/ 720 English); TOEFL - 106 (30 reading/ 23 speaking/ 29 listening/ 24 writing)

Awards and Honors:

Kangaroo Mathematics Olympiad (2021, 22, 23, 24)– Silver medals in 2022/24 and a gold medal in 2023 - (over 30 thousand students); Physics Olympiad - OBF (2023, 24) – Silver Medal in 2023, Bronze Medal in 2024 - (over 40 thousand students - top 1.5%); Robotics Olympiad - OBR (2024) – Bronze Medal in 2023 - (over 40 thousand students); Astronomy Olympiad - OBA (2021, 22) – Gold Medals - (over 100 thousand students); Geography Olympiad - GeoBrasil (2022) – Gold Medal - (over 15 thousand students - top 1%);

RELEVANT EXPERIENCE

Duke AERO, *Member of Liquid Propulsion Team*

Dates: 2025 - current

- Developed advanced CAD models and Ansys fluid simulations to optimize the experimental rocket engine's combustion and cooling efficiency, contributing to the team's goal of reaching 50,000 feet.
- Supported cross-subteam operations—including propulsion, avionics, and structures—orchestrating collaborative testing and improving design compatibility across 9 engineering divisions.

Brazilian Students Association - BRASA, *Academic Affairs*

Dates: 2025 - current

- Orchestrated academic and professional events with industry leaders and professors, benefiting a network of 70+ Brazilian students within the Duke community.
- Spearheaded outreach efforts, bringing in speakers from different sectors (e.g., Bain & Company, Ambev, and Dr. Miguel Nicolelis) to discuss research, innovation, and career development.

Teacher Assistant, *Calculus 2 Help room, Head Physics Coordinator (24,23), Monitor (22,21)*

Dates: 2021 - current

- Spearheaded the oversight of teacher-approved subject summaries each semester; taught online and in-person review sessions for 250+ students.

EGR101, *Chief Engineer*

Dates: 2025 - current

- Researched, conceived, designed, and developed a functioning prototype for a ready-for-market automatic, effective, safe, and easy-to-use paintbrush cleaner.
- add

TutorMundi, *Unpaid summer intern for a programming and research position*

Dates: Summer 2024

- Debugged, developed features, & quality tested AI responses for CheckLLM, a program designed to check its answers against an LLM for an education app.
- Developed with JavaScript, CSS, HTML, git, GitHub, and Meteor for the framework that reached 50 schools across the country.

COMMUNITY SERVICE

Unidos de Paraisópolis, *Python Teacher*

Dates: 2025,24

- Adapted lesson plans and created PPT presentations to teach basic logic, math & Python to students between 12 and 25 years old in a local favela.

Educational Access Club, *Project Co-Founder*

Dates: 2024

- Co-created web-based directory on the 8th - 11th grade Brazilian core curriculum, making it accessible to an NGO for over 4,000 under-resourced teens and adults.

SKILLS AND INTEREST

Computer: All applications in Office 365, including Excel | CAD software Onshape and NX | Intermediate in Javascript, HTML, CSS, Python, and Java| Ansys | git | github | meteor

Languages: C2 level (fluent) english proficiency | B2 level (intermediate to advanced) spanish | Portuguese (fluent) | German (beginner)

Interests: Running, Basketball, Tennis, Ukulele, STEM projects (RC plane, generator, etc.), movies, Rock, Jazz, Philosophy, Debate, Singing, and Playing tabletop/console games.
